

Local Tide Observation Form

Seaweed Tide Planner - field observation record. Time zone: Africa/Nairobi.

Use this form to record what actually happens at a site location. This is not a navigation record and does not change tide predictions until reviewed.

1. Site and Observer

Site/location

Village/group

Observer name

Phone/contact

Date

Start time

End time

2. Observation Focus

☐ Low tide

☐ High tide

☐ General tide movement

☐ Not sure

At the start, water was:

☐ Falling

☐ Lowest / nearly still

☐ Rising

☐ Highest / nearly still

☐ Not sure

Lowest time

Highest time

Current strength

3. Farm Exposure and Access

Seaweed lines exposed?

☐ Yes

☐ Partly

☐ No

Farm accessible on foot?

☐ Yes

☐ With difficulty

☐ No

☐ Not checked

First exposed

Covered again

Too deep?

Crop damage seen?

☐ Yes

☐ No

☐ Unsure

Water movement/current:

☐ Calm/still

☐ Light

☐ Strong

☐ Unsure

4. Water Height

Fixed measuring point used?

☐ Yes

☐ No

☐ Not recorded

Point description

Water height

Unit:

☐ cm

☐ m

Compared with mark:

☐ Above

☐ At mark

☐ Below

☐ Unsure

Notes/sketch of measuring point:

5. Weather and Sea Conditions

Wind:

☐ Calm ☐ Light ☐ Strong ☐ Unsure

Wind direction

Sea state:

☐ Calm ☐ Choppy ☐ Rough ☐ Unsure

Rain:

☐ None ☐ Light ☐ Heavy ☐ Unsure

Unusual conditions: ☐ Storm ☐ River/flood water ☐ Large swell ☐ Unusually low water ☐ Unusually high water

☐ Other

6. Evidence and Confidence

Photo taken?

☐ Yes ☐ No

Photo/file name

Confidence: ☐ Good ☐ Approximate ☐ Unsure

7. General Notes

Submit this form to a Tide Planner admin/operator. Not for marine navigation or safety-of-life decisions.
